Net dividends to ADRs, if applicable are estimated, using withholding tax rates conventions, deemed accurate, but investors are urged to consult their tax advisor for exact dividend computations. Investors who have received this report from a member of Clarkson may be prohibited in certain states or other jurisdictions from purchasing securities mentioned in this report from a member of Clarkson.

This Report may discuss numerous securities, some of which may not be qualified for sale in certain states and may therefore not be offered to investors in such states. This document should not be construed as providing investment services. Investing in non-U.S. securities including ADRs involves significant risks such as fluctuation of exchange rates that may have adverse effects on the value or price of income derived from the security. Securities of some foreign companies may be less liquid and prices more volatile than securities of U.S. companies. Securities of non-U.S. issuers may not be registered with or subject to Securities and Exchange Commission reporting requirements; therefore, information regarding such issuers may be limited.
